

This dental care policy covers the following services when performed by a licensed dentist, dental hygienist, or denturist to the extent that they are operating within the scope of their license as required under law in the state of issuance, and when determined to be necessary, usual, and customary by the standards of generally accepted dental practice for the prevention or treatment of oral disease or for accidental injury, including masticatory function (chewing of food).

Advantage Network dentists contract with PacificSource to furnish dental services and supplies for a set fee. That fee is called the contracted allowable fee. Participating providers agree not to collect more than the contracted allowable fee. When you use an Advantage Network provider, you will pay only the participating provider amounts below. If you choose not to use a participating provider, or don't have access to them, reimbursement is based on the contracted allowable fee. If charges exceed the allowable fee, the excess charges are your responsibility.

This plan covers dental services for enrolled individuals age 18 and younger as required under the Affordable Care Act.

Additional Information

What is the annual deductible?

Your plan's deductible is the amount of money that you pay first, before your plan starts to pay. You'll see that some services are covered by the plan without you needing to meet the deductible. The individual deductible applies if you enroll without dependents. If you and one or more dependents enroll, the individual deductible applies for each member only until the family deductible has been met.

Deductible expense applies only to non-participating providers. Deductible does not apply to Class I Services.

What is the annual benefit maximum?

The annual benefit maximum is the maximum amount payable by this policy for covered services received each calendar year for enrolled individuals age 19 and older.

What is the out-of-pocket limit?

The out-of-pocket limit is the most you'll pay for approved dental expenses during the calendar year and applies to enrolled individuals age 18 and younger on your policy. Once the out-of-pocket limit has been met, the plan will pay 100 percent of covered charges for the rest of that year. Only participating provider expense applies to the out-of-pocket limit. Services provided by non-participating providers, non-essential health benefits, penalties, and balance billed amounts over the allowable fee do not accumulate toward the out-of-pocket limit.

What is an exclusion period?

A member must be enrolled under the group dental policy for the period of time stated above before this plan pays benefits. This exclusion period may be reduced or removed for persons insured under this policy on the policy's original effective date if the person was continuously covered under a predecessor policy of the policyholder, or for enrolled individuals age 18 and younger.

Preauthorization

Coverage of certain dental services and surgical procedures requires a benefit determination by PacificSource before the services are performed. This process is called 'preauthorization'.

Preauthorization is necessary to determine if certain services and supplies are covered under this plan, and if you meet the plan's eligibility requirements. You'll find the most current preauthorization list on our website, [PacificSource.com/member/preauthorization.aspx](https://www.pacificsource.com/member/preauthorization.aspx).
