Choose a Dental Choice, Dental Advantage, or Dental Advantage Essentials plan

Dental Choice plans give your employees the option to see any dentist they want. They typically cost more than Dental Advantage plans.

Dental Advantage plans give your employees access to a broad network of more than 1,800 dentists throughout Oregon, Idaho, and Washington. In order to get the most value from your plan, it is important that your employees see Dental Advantage network dentists.

Dental Advantage Essentials plans are not available in all areas. They cost less, but the plans only pay when an employee sees a network dentist. Otherwise, employees pay the full cost of dental care. These plans also require employees to choose a primary care dentist when signing up.

Give your employees a voluntary dental option

Notlooking to offer a dental plan, but want to give your employees a dental option? Voluntary Dental may be just what you need.

With this option, your employees pay the full premium if they are buying their own dental plan, but they get plan benefits that typically come with a dental plan that you might offer as an employee.

Please note that there are additional guidelines and requirements for voluntary dental plans.
