

Incentive Drug List

Effective January 15, 2015

The Incentive Drug List is used in combination with the PacificSource Drug List for large employer groups. The drugs listed below are available for the incentive copay shown on your policy or pharmacy summary of benefits. These incentive drugs are alternatives to Tier 2 or 3 copay drugs. This is a partial list of covered drugs, and includes only those offered at the incentive copay rate. A full list of covered drugs can be found on our website at PacificSource.com/drug-list.

If you are taking a drug for a chronic condition and the drug is not listed below, consider asking your doctor about switching to one of these incentive alternatives to reduce your out-of-pocket costs. Show your PacificSource ID card each time you purchase prescriptions at a participating pharmacy to ensure you're receiving the best benefit.

Please note: Some health plans may only provide coverage for certain drugs on this list. A separate benefit may apply to some drugs, such as specialty drugs. Please refer to your member benefit handbook for pharmacy benefit details. This list is subject to change as new drugs enter the market.

Unless otherwise noted, incentive drugs are limited to short-acting drugs. Long-acting drugs, transdermal patches, suspensions, compounds, and injectable drugs are not typically on the Incentive Drug List.

If you have questions, please email our Customer Service Department at cs@pacificsource.com, or call toll-free: (800) 688-5008 in Idaho, (877) 590-1596 in Montana, or (888) 977-9299 in Oregon.

Antidepressants		Blood Pressure Lowering and Cardiac Drugs – Antihypertensives		moexipril	spironolactone
bupropion SR, XL	paroxetine			nadolol	spironolactone/HCTZ
citalopram	sertraline	amlodipine	furosemide	nadolol/bendroflumethiazide	toremide
fluoxetine	trazodone	amlodipine/benazepril	guanfacine	nicardipine	trandolapril
imipramine	venlafaxine	atenolol	hydrochlorothiazide (HCTZ)	nifedipine ER	triamterene/HCTZ
nortriptyline		atenolol/chlorthalidone	indapamide	pindolol	valsartan/HCTZ
Anticonvulsants		benazepril	irbesartan	propranolol	verapamil
carbamazepine		benazepril/HCTZ	isradipine	propranolol HCTZ	
Antidiabetic Agents		bisoprolol	labetalol	quinapril	verapamil ER
glimepiride	Insulin (NPH and Reg)	bisoprolol/HCTZ	lisinopril	quinapril/HCTZ	
glipizide	insulin syringes and needles	bumetanide	lisinopril/HCTZ	Cholesterol Lowering Drugs – Hyperlipidemics	
glipizide ER	metformin	captopril	losartan	atorvastatin	gemfibrozil
glipizide/metformin	metformin ER	captopril/HCTZ	losartan/HCTZ	cholestyramine	lovastatin
glyburide		chlorthalidone	methyldopa	fenofibrate	pravastatin
Antivirals		clonidine	methyldopa/HCTZ	Endocrine/Thyroid	
acyclovir		diltiazem ER	metolazone	levothyroxine	
Mental Health		diltiazem tablet	metoprolol ER	Respiratory Agents	
lithium carbonate	quetiapine	enalapril	metoprolol tartrate	albuterol	Foradil
olanzapine	risperidone	enalapril/HCTZ	metoprolol/HCTZ	Qvar	
		felodipine ER	minoxidil
