Who are the Teladoc doctors?
Teladoc doctors are U.S. board certified in internal medicine, family practice, or pediatrics. They average 20 years practice experience, are licensed in your state, and incorporate Teladoc into their day-to-day practice as a way to provide people with convenient access to quality medical care.

Does Teladoc replace my doctor?
No. Teladoc does not replace your primary care physician. Teladoc should be used when you need immediate care for nonemergent medical issues. It is an affordable, convenient alternative to urgent care and ER visits.

What kind of medical care does Teladoc provide?
Teladoc provides general medical care for adults and children, and behavioral healthcare for adults. Examples of common medical conditions Teladoc can address include: sinus problems, pink eye, bronchitis, allergies, flu, ear infections, urinary tract infections, and upper respiratory infections.

What consult methods are available?
You can talk with a general medical Teladoc doctor via a phone consult, video consult within the secure member portal, or video consult within the Teladoc mobile app. Behavioral health visits are available via video only.

How do I set up my Teladoc account?
You can set up your account through InTouch at PacificSource.com, or through the Teladoc website or mobile app. You can also call Teladoc to get started. If setting up your account online, when asked to enter the name of your employer or insurance carrier, please make sure to enter PacificSource.

How do I request a consult to talk to a doctor?

How do I request a behavioral health visit?
Behavioral health visits are scheduled and occur via the Teladoc website or mobile app. Log into your account, complete a quick assessment, and choose your therapist. Provide three options of times you are available for an appointment. The therapist will reach out to you to schedule the appointment.

How quickly can I talk to the doctor?
The median call back time for a general medical request is just 10 minutes. If you miss the doctor’s call, whether you are away from the phone or you have anonymous call blocker on, you will be returned to the bottom of the waiting list. The consult request is cancelled if you miss three calls.

Is there a time limit when talking with a doctor?
There is no time limit for consults.

Can Teladoc doctors write a prescription?
Yes. Teladoc doctors can prescribe short-term medication for a wide range of conditions when medically appropriate. Teladoc doctors do not prescribe substances controlled by the DEA, nontherapeutic, and/or certain other drugs, which may be harmful because of their potential abuse.

How do I pay for a prescription called in by Teladoc?
When you go to your pharmacy of choice to pick up the prescription, you may use your health/prescription insurance card to help pay for the medication. The exact amount you will pay is based on the type of medication and your plan benefits.

Is the consult fee the same price, regardless of the time?
The exact amount you will pay is based on your plan design. This dollar amount is shown on your summary of benefits.

How do I pay for the consult?
You can pay with your HSA (health savings account) card, credit card, prepaid debit card, or by PayPal. Your account will be charged at the time of the visit.

If the Teladoc doctor recommends that I see my primary care physician or a specialist, do I still have to pay the Teladoc consult fee?
Yes. Just like any doctor appointment, you must pay for the consulting doctor’s time.

Can I provide consult information to my doctor?
