The plan administrator, not PacificSource, is responsible for sending creditable coverage notices to its members. PacificSource provides sample creditability notices that may be used for this purpose. This notification is mandatory at least once a year by no later than October 15. Annually, PacificSource evaluates our standard benefit designs by applying the actuarial value test for creditable coverage determination. We use this information to create our Creditability Matrix document, which you may use as a starting point to determine whether your prescription drug plan satisfies the requirements of creditable coverage. You will need to consult the pharmacy benefit summary to determine the plan's description of benefits. If you are unable to determine your plan's Medicare Part D creditability from the materials provided, you may request additional information from your sales representative.
