

Get care from a professional Birth Doula at **no cost**

What is a Birth Doula?

A Birth Doula provides information, emotional support, and physical comfort measures during your pregnancy, childbirth, and after your baby is born.

Care from a Birth Doula includes:

- Visits during your pregnancy
- Answers to your questions
- Help preparing you for childbirth
- Information on caring for your baby
- Breastfeeding support

Best of all, your Birth Doula will be there with you during labor, to offer comfort and encouragement.

Is a Birth Doula the same as a midwife?

No. Midwives are medical providers. Birth Doula care is focused on your emotional well-being and social support. Birth Doulas provide information and support during your pregnancy, birth and postpartum. They do not provide medical services or medical advice.

Birth Doulas support all kinds of families, including people who:

- Have experienced infant loss
- Are choosing adoption
- Speak a language other than English
- Have culturally specific needs
- Are single

Why should I consider a Birth Doula?

Having a Birth Doula during labor has been shown to lower the rate of cesarean, the use of epidurals, and the length of labor.

How much does a Birth Doula cost?

For our members, working with a Birth Doula is free of charge.
