Our New **2020** products.

The product you can enroll in is determined by which county you live in.

Our health plan products are a unique combination of networks and plan designs to fit the needs of you and your family. For 2020 we're offering two new products: **Navigator** and **Voyager**. The county where you live determines which one of these you can enroll in.

These new products are part of our continued effort to simplify how you make informed decisions about your health, and to keep you engaged with your health-care providers. The products further refine our mission to provide you with quality of care, accountability, access, affordability, and member choice.

Your product's provider network determines which doctors, hospitals, and other healthcare providers are covered by in-network benefits for you. All of our Navigator and Voyager products also offer out-of-network benefits, for more freedom and choice.

Navigator

Navigator is our coordinated care product, where a member's personal provider is navigating care within a coordinated network of health professionals who are focused on the individual throughout their health journey.

Navigator products are designed to support member engagement and promote shared decision making with providers.

Navigator gives access to a broad array of in-network providers, including local providers, providers within our four-state area, and those available for urgent and emergent conditions while traveling nationally through contracts with First Health[®], and in Alaska through contracts with First Choice Health[™].

Our provider partners give members personalized care through high-quality health management, and help members better understand the costs associated with their health.

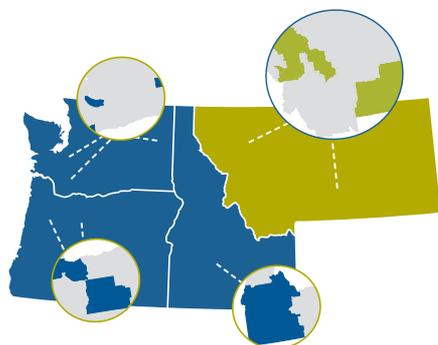

Navigator is available in the following counties:

Carbon, Flathead, Lake, Lewis and Clark, Missoula, Musselshell, Park, Stillwater, Sweet Grass, and Yellowstone

Navigator products feature in-network coordinated care provider partners in each of our four states.

Voyager is a preferred provider network, suited for people who prefer a more self-directed experience.

Voyager includes a broad array of in-network providers from PacificSource in Idaho, Montana, Oregon, and Washington, as well as nationally through contracts with First Health[®], and in Alaska through contracts with First Choice Health[™].

Voyager is available for purchase by people living in the following counties:

We cover more than **40,000** individual members and their families in the Greater Northwest.*

PacificSource covers independent people just like you who get their health insurance direct, and not from an employer.

Helping you choose a **health plan**

**Health plans can be complicated.
We can help simplify your choice.**

All our health plans include coverage for preventive care, \$0 annual physicals from in-network providers, and most vaccinations.

Non-HSA

Non-HSA plans allow you to access some benefits for a copay prior to meeting your deductible (such as primary care, urgent care, or pharmacy).

HSA

HSA-qualified plans help you save money for healthcare expenses, such as deductibles and co-insurance. This type of plan requires that all major benefits be subject to the deductible.

HSA plans enable the use of HSA bank accounts. Contributions to HSA accounts are 100% tax deductible (up to the legal maximum), like an IRA. And withdrawals from your HSA to pay for qualified medical expenses are **tax-free**. Pro Tip: Look for plan names with “HSA” in them.

Great stuff you and your family get with our plans.
