At PacificSource, everything we do revolves around taking care of people. That’s why we offer quality customer service that you can access by phone or email. Our average hold time for calls is under 30 seconds, based on internal call reports. If you call, you’ll talk with a live person—not an automated response system. Or email us, if you prefer. Our friendly, professional Customer Service Representatives will be happy to help you.

Maximize Your Dental Benefits
You probably know that maintaining dental health is an important part of your overall well-being. Numerous studies suggest a connection between gum disease and a variety of serious health problems, including heart disease, stroke, and arthritis. In addition to daily care, be sure to schedule a dental exam and cleaning as often as your plan allows.

Understand Your Benefits and Options
Knowing your dental plan benefits and any limitations before you receive services can save you the hardship of unexpected expenses. Take the time to read through your member benefit handbook, and if you have any questions, contact our Customer Service team. Some important things to know:

- Your coinsurance amount
- Your annual deductible amount
- The number of cleanings covered per year
- How often X-rays are allowed
- The annual maximum benefit

While PacificSource dental plan benefits vary, most cover the cost of preventive and diagnostic care (also known as Class I services) at 80 to 100 percent. As treatments increase in cost and complexity—crowns and bridges, for example—your plan will typically pay a lower percentage of the cost.

Your PacificSource ID Card
Your ID cards will be mailed directly to your home within a few weeks of enrollment. Once you receive them, you can discard any old cards. Please begin using your new card for your dental services. When you visit your dentist, be sure to present your card. This ensures they have the correct insurance information.

If you have any questions or haven’t received your ID cards, please contact our Customer Service team.

Provider Networks

Dental Advantage
Dental Advantage Network contracted dentists encourage preventive care services to help you maintain your dental health and avoid severe problems. You’ll have the benefit of no balance billing on most covered services. This means you will pay your plan’s coinsurance amount and will usually not be responsible for any excess charges for covered services.

Dental Advantage Essentials
You’ll choose a primary care dentist (PCD) from the Dental Advantage Essentials Network to coordinate your dental care. Only services provided by in-network, Dental Advantage Essentials dentists are covered. And you’ll need a referral from your PCD to see a specialist. As with other Dental Advantage providers, your dentist will encourage preventive care services to help you maintain your dental health and avoid serious problems. You’ll have the benefit of no balance billing on most covered services.

Dental Choice
If you have a Dental Choice plan, you have the freedom to choose any dentist. However, you can save on out-of-pocket expenses by using Dental Advantage Network providers. Dental Advantage providers encourage preventive care services to help you maintain your dental health. You’ll have the benefit of no balance billing on most covered services. If you choose not to use a Dental Advantage Network contracted dentist, or don’t have access to one, reimbursement will continue to be based on usual, customary, and reasonable (UCR) charges.
