

Offer Your Employees a Voluntary Dental Option

You can balance the rising costs of employee benefits with well-rounded packages necessary to retain and attract a quality workforce. Voluntary Dental makes it easy to offer dental coverage to employees without increasing healthcare costs.

How Our Voluntary Dental Option Works

For businesses with ten or more enrolled employees, Voluntary Dental makes it easy to offer dental coverage without increasing your healthcare costs.

With Voluntary Dental, employees may be responsible for the full premium, but they get the convenience and richer benefits that come with an employee-sponsored plan. Employees can pay their premiums with pretax dollars through a Section 125 plan.

Features at a Glance

- Employees may be responsible for the full premium.
- Employers must set up payroll deductions and submit the premiums on behalf of their employees.
- In most cases, there is a 12-month waiting period for Class III services. However, we will credit prior coverage toward the waiting period.
