PacificSource 2026 List of Covered Drugs

What is a Drug List?

A drug list is a list of covered drugs, selected in consultation with a team of healthcare providers. The list represents prescription therapies believed to be a necessary part of a quality treatment program. We will generally cover a drug on the list as long as it is medically necessary, the prescription is filled at an in-network pharmacy, and other plan rules are followed. The drug list is a guide to help you and your provider identify medications that can provide the best clinical results at the lowest cost.

To find out which list applies to your pharmacy plan, check your PacificSource member ID card or Summary of Benefits—available online through your InTouch account or from your benefits administrator. You are also welcome to call our Customer Service team for assistance. If you have questions about your coverage, please contact Customer Service at 888-977-9299 or at cs@pacificsource.com.

Can the Drug List change?

Yes. Updates to the drug list may occur on a monthly basis. Refer to the list on our website, PacificSource.com, for the most current list of covered medications. If a change is made to the drug list, we will notify affected members at least 30 days before the change becomes effective. Changes may include removing drugs from our list, moving a drug to a higher cost-sharing tier, or adding restrictions such as prior authorization, quantity limit, or step therapy. Please refer to our prescription drug information and news web page for more information (PacificSource.com/members/individuals/prescription-drug-information).

How do I use the Drug List?

Our drug lists are available in a searchable online format and can be found at PacificSource.com/find-a-drug, where you'll have the option to view and print an entire list or just your search results. Only the drugs on the list are covered by your plan. Our drug lists are subject to change, as new drugs are constantly entering the market. **Please note: Some specific group plans may not cover all drugs on the drug list.** A separate benefit may apply to some drugs, such as specialty drugs.

State Drug Lists: Our Idaho Drug List (ID), Montana Drug List (MT), and Oregon Drug List (OR) are used by the majority of our members covered through employers or who have an individual and family plan.

Tier: The tier numbers in the drug list refer to drug copay tiers.

- Tier 0 drugs have no copays and include preventive service drugs covered under the Affordable Care Act.
- Tier 1 drugs have a low copay and are typically generics.
- Tier 2 drugs have a mid-range copay.
- Tier 3 drugs have a high copay.
- Tier 4 drugs have the highest copay.

Drugs listed as "SP" are specialty medications and may have additional restrictions or costs associated with them.

Drugs listed as "PS Expanded NCDL" are available on the PacificSource Expanded No Cost Drug List, which groups may opt to provide.

Drugs listed as "VBP Drug List" are available on the Value Based Preventive No-Cost Drug List, which self-funded groups may opt to provide.

Drugs listed with “Prudent” are available on a copay maximizer program, available to select self-insured large groups only, additional optional coverage, refer to benefit book.

Requirements/Limits: This may include information on Quantity Limits ("QL"), if the medication requires prior authorization ("PA"), Step Therapy ("ST"), if the medication is considered a specialty medication ("SP"), or if there are other restrictions on coverage. Please see your Member Handbook for details.

What are generic drugs?

A generic drug is approved by the Food and Drug Administration (FDA) as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

If you or your provider requests that your medication be filled with a brand name drug when a generic is available, you may be responsible for the brand name drug's copay plus the difference in cost between the brand name drug and the generic option. Actual costs may vary by plan design.

Affordable Care Act (ACA) No Cost Drug List

The Affordable Care Act (ACA) No Cost Drug List includes medications used to prevent certain health conditions. These are also known as Tier 0 drugs. If you are enrolled in a group that qualified under ACA, these drugs are covered at no cost when prescribed by a licensed healthcare provider. Some examples include drugs used to help you stop smoking, folic acid, and contraceptives for women. Covered drugs are subject to restrictions such as age and gender. For more information please visit PacificSource.com/members/prescription-drug-information/lists-and-criteria.

Drugs with special requirements

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

Partial Fill: Some drugs have a high cost and many side effects that make them harder to tolerate for long-term use. These medications will be dispensed in a limited amount on the first fill only (for half the normal copay). This first fill acts as a trial period to see if you are able to tolerate the drug. If the trial is a success, future fills will be for the full amount.

PA (Prior Authorization): If "PA" appears in the requirements column, the drug requires prior authorization. This means your provider will need to get approval from us before you will be able to fill your prescription. Without prior authorization, we may not cover the drug. Please have your provider submit documentation to us for authorization review if you need to get a "PA."

PA-NSO (Prior Authorization, New Starts Only): If "PA-NSO" appears in the requirements column, the drug may require prior authorization. If you are a new member or if you have not taken this drug before, you or your physician are required to get prior authorization from us before you will be able to fill your prescription. Without prior authorization, we may not cover the drug. Please have your provider submit documentation to us for authorization review.

QL (Quantity Limits): If "QL" appears in the requirements column, the drug may be covered by your plan, but only up to a certain quantity or amount. If you need quantities higher than the limit shown, please have your provider contact us for authorization.

ST (Step Therapy): In some cases, we require you to first try a lower-cost alternative ("Step 1") drug before using the more expensive ("Step 2" or "Step 3") drug. If it is medically necessary for you to use a Step 2 or Step 3 drug as initial therapy, your provider will need to submit a request for authorization.

LA (Limited Access): If "LA" appears in the requirements column, the drug is only available at a specific Limited Access Pharmacy and is limited to a 31-day supply.

SP (Specialty Drug): If "SP" appears in the requirements column, it is a specialty drug. Fills of specialty drugs are generally limited to a 30-day supply and must be filled at an in-network Specialty Pharmacy. Specialty drugs are not available to be filled at your regular retail or mail-order pharmacy unless an exception has been granted. Here is the contact information for specialty pharmacy access in all 50 states:

CVS Specialty Pharmacy
800-237-2767 Phone
800-323-2445 Fax

Regional specialty pharmacies:
Depending where you live, you may wish to contact your provider about using the specialty pharmacies in your region, including Legacy Health, OHSU, St. Luke's, and Billings Clinic.

Age/Gender Restrictions: Covered drugs for members in Idaho, Montana, and Oregon are subject to possible age and gender restrictions. For more information, please visit PacificSource.com/Find-A-Drug.

How do I get authorization for my drug?

Certain drugs require prior authorization or have additional requirements ("PA" or "ST") that must be met before your drug is covered under your prescription benefit.

If your drug requires "PA" or "PA-NSO", you can:

- Have your provider submit medical documentation to us for review.

If your drug requires "ST", you can:

- Ask your provider about prescribing a Step 1 drug. If these options are not appropriate, your provider will need to submit a request for authorization to us.

You and your provider can get more information about specific restrictions applied to covered drugs by visiting our website. We have posted documents that address our Prior Authorization and Step Therapy policies at PacificSource.com/members/prescription-drug-information/lists-and-criteria, under "Utilization Management."

Your provider can submit authorization requests and supporting documentation to our Pharmacy Services department online via our InTouch portal, or by calling us at 844-877-4803.

Medications on your drug list that are prescribed at the time of discharge from the hospital may be covered for 3 days without a prior authorization. Please call us at 888-977-9299 to request this coverage and to see if your plan is eligible.

What if my drug is not on the Drug List?

If your drug is not included on the list of covered drugs for your plan, you can:

- Visit our website for a list of similar drugs that are covered by us. You can ask your provider to prescribe a drug that is covered by your plan.
- Ask us to make an exception and cover your drug.

How do I request an exception from PacificSource?

You can ask us to cover a drug even if it is not on our drug list. If approved, this drug will be covered at a pre-determined cost-sharing level.

Generally, we will only approve your request for an exception if the alternative drugs included on the plan's drug list would not be as effective in treating your covered condition and/or would cause you to have adverse medical effects. Your provider will need to submit documentation to us for consideration.

If you or your provider have questions about how to submit a request, please contact our Customer Service team at 888-977-9299 or by email at cs@pacificsource.com.

PacificSource Medication Synchronization Program

To ensure your medication is effective, it's important to take it exactly as prescribed. This can be challenging if you take multiple medications that refill at different times and require many trips to the pharmacy. Through our medication synchronization program, your ongoing prescriptions may be coordinated so refills are ready at the same time. Certain limitations apply regarding the medications eligible for synchronization. If you wish to have your medication refills synchronized, please ask your provider or pharmacist to contact our Pharmacy Services Department at 844-877-4803 or email pharmacy@pacificsource.com. We will work with your provider to evaluate your options and develop your synchronization plan.
