# Helping you choose a health plan

**Health plans can be complicated. We can help simplify your choice.**

All our health plans are designed to help your employees feel well and stay healthy, including coverage for preventive care, \$0 annual physicals, and most vaccinations.

---

## Choose one plan, or more.

Our Right Fit options let your employees decide the premium and coverage that best suits their needs.

They can choose from two to four different plans. There is no minimum enrollment number, but the number of plans offered may not exceed the total number of enrolling employees.

The plans offered can use different provider networks, and employees may change their plan choice during your annual open enrollment period.

The minimum employer contribution requirement is 50% employee / 0% dependents of the lowest-cost plan.

Subject to underwriting guidelines.

---

## Right Fit

## Health Savings Accounts (HSA) are a win-win

HSA-qualified plans help employees save money for healthcare expenses, such as deductibles and coinsurance. They also help YOU save premium dollars, and your contributions to HSA accounts are exempt from payroll taxes. All of our HSA plans feature embedded deductibles and out-of-pocket limits. **Pro Tip:** look for plan names with "HSA" in them.

---

## HSA

## Health Reimbursement Arrangements (HRA) to combat costs

With an HRA, you reimburse some of your employees' medical expenses. You control how much to contribute and which types of expenses are eligible. And if they don't need it, you don't spend it.

---

## HRA
