Good dental health can lead to better overall health. You can pair our dental plans with the health plans you offer your employees, or select dental-only.

**Freedom to see any dentist**

Our Dental Choice plans give your employees the option to see any dentist they want. They are high-value options for employees who place a priority on choice.

**Give your employees a voluntary dental option**

Not looking to offer a dental plan, but want to give your employees a dental option? Voluntary Dental may be just what you need. With this option, your employees pay the full premium as if they were buying their own dental plan, but they get plan benefits that typically come with a dental plan that you might offer as an employer.

Please note that there are additional guidelines and requirements for voluntary dental plans.

A downloadable brochure about voluntary dental options is available at PacificSource.com.
