

Corrections to 2022 Oregon Individual and Family Plan Comparison (Navigator)

Details for the Catastrophic plan indicate that chiropractic and acupuncture services are not covered under this plan. Those services are in fact covered in full by the Catastrophic plan once the deductible is met for in-network providers, up to 20 chiropractic and 12 acupuncture visits per year.

For the Silver 3900 plan, the member cost share for out-of-network emergency services (after deductible) is 30%, not 90%.

For the Silver 3600 plan, the member cost share for in-network physical, occupational, or speech therapy is a \$40 copay per visit (for services provided in an office setting).

These errors were corrected in digital versions of the document. Rather than reprint the physical versions, we chose the eco-friendlier option of this notice.

We look forward to serving you.
